

# REMOVABLE ULTRA-LOW-PROFILE CUSHION FOOT

MAXIMUM GROUND CLEARANCE, WITH REPLACEABILITY

## Why Upgrade?

By converting your standard or aluminum low-profile legs to the removable ultra -low-Profile option, you unlock:

- Enhanced operational flexibility in tight or low-clearance environments
- Faster turn-around on service calls and part replacements

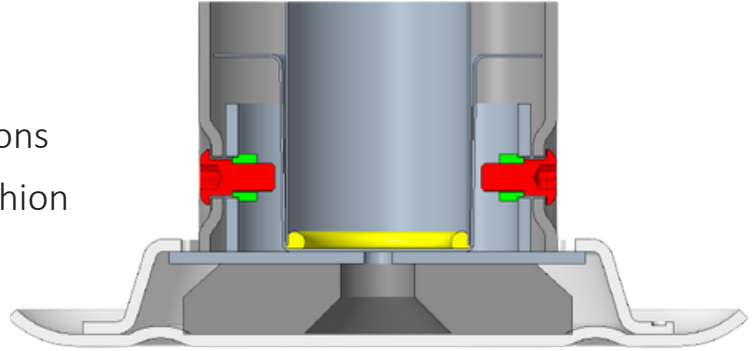

# REMOVABLE ULTRA-LOW-PROFILE

The Removable Ultra Low-Profile cushion foot sets a new standard in versatility and performance, offering an extra inch of ground clearance and a removable design for enhanced serviceability. This innovative solution simplifies maintenance and ensures reliability in demanding fleet operations. It delivers long-lasting durability and adaptability for diverse applications.

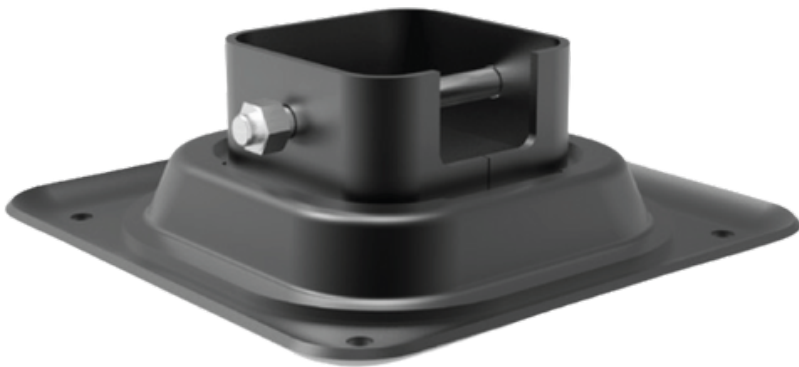

## Key Benefits

- +1" Extra Ground Clearance than standard bolt on shoe options.
- **Removable Design**
  - Fits virtually any JOST bolt-on Shoe upgrade options including Double Cushion Foot, Wear Resistant Cushion Foot, and the Extreme Double Cushion Foot
- **Improved Serviceability**
  - Simplified access for inspections & maintenance
  - Premium upgrade opportunity for existing fleets

### Standard Bolt On

Ground clearance limited by bolt head

### Ultra-Low-Profile Removable

Shoe ascends into upper tube for increased clearance

*\*Requires embossed-tube*
